

Joint Labor-Management Benefits Committee (JLMBC) COMMITTEE REPORT 24-21

Date: May 2, 2024

To: JLMBC

From: Staff

Subject: Request for Proposal Health and Dependent

Care Spending Account Services (HDCSA RFP)

Findings & Recommendation

JLMBC MEMBERS:

Management

Dana Brown, Chairperson
Tony Royster, First Prov. Chairperson
Matthew Budnick

Matthew Rudnick Matthew Szabo Holly Wolcott

Employee Organizations

Jenita Igwealor, Vice-Chairperson

Marleen Fonseca, Second Prov. Chairperson

Chad Boggio Esteban Lizardo Lisa Palombi

RECOMMENDATION

That the JLMBC recommend to the General Manager of the Personnel Department that Ameriflex be selected as the administrator of the Civilian LAwell Benefits Program's (LAwell Program) Health and Dependent Care Spending Account Services for a three-year contract beginning January 1, 2025, through December 31, 2027, with an option for up to two additional one-year terms, pending successful negotiations by the Personnel Department with Ameriflex for, at minimum, contract requirements, prices/premiums, and service level agreements.

DISCUSSION

A. Background

The following is a summary and recap of actions relative to the procurement of the Health and Dependent Care Spending Account Services:

At its January 4, 2024 meeting, the JLMBC approved the release of a Request for Proposals for Health and Dependent Care Spending Account Services (HDCSA RFP) for the LAwell Program. Since that action, the following has occurred:

- February 15, 2024 The HDCSA RFP was released to the vendor community through RAMPLA.ORG as opportunity ID 211911, with a response deadline of March 21, 2024, at 3:00 p.m.
- March 7, 2024 A pre-proposal conference was held.
- March 21, 2024 A total of six HDCSA RFP responses were received from the following Proposers by the 3:00 p.m. deadline: Ameriflex, Health Equity, Inspira Financial (Inspira), Total Administrative Corporation (TASC), ThrivePass, and Voya.

B. RFP Services Overview

The primary objective of the HDCSA RFP is to select a qualified and experienced vendor who can administer the Healthcare Flexible Spending Account (HCFSA) and Dependent Care Reimbursement Account (DCRA) Services for the LAwell Program. The mission of this procurement is to identify the service provider(s) who can best support the LAwell Program population, the HCFSA and DCRA plan participants, and the Employee Benefits Division staff by:

- Providing the Scope of Services sought under the HDCSA RFP
- Enhancing HCFSA and DCRA plan education and communications
- Improving the customer service experience for members
- Being responsive and flexible to the needs of the City.

The LAwell Program's HCFSA and DCRA benefits offer eligible participants the ability to set pre-taxed dollars into a special account for the purchase or reimbursement of qualified items, pursuant to the provisions of the Internal Revenue Code (IRC). Participation in these tax-advantaged accounts is "use it or lose it", and all pre-tax money deferred during a tax year must be used by the end of the tax year. Any funds not used are forfeited to the plan. The IRC does allow for a grace period option which the LAwell plan adopted a few years ago and which gives participating members an additional two and a half months to use their funds before the remaining balance is forfeited. Participating members also have through the end of the month of April to submit their claims for reimbursement for qualified expenses made by March 15th.

Participation in Health and Dependent Care Spending Accounts are not limited to the LAwell Programs approximately 26,000 civilian members. The approximately 12,000 sworn employees of the Los Angeles Police and Fire Departments are also able to participate. In 2023, a total of approximately 3,055 employees (civilian and sworn) had an active Healthcare flexible spending account and a total of approximately 575 employees (civilian and sworn) had an active Dependent Care reimbursement account.

C. Minimum Qualification

The HDCSA RFP asked that any responder meet the following minimum qualifications in order to have their proposal considered.

1	Be legally authorized to do business in the State of California. All required permits and licenses must be in full force at the time of proposing.
	Have a minimum of ten continuous years of experience providing the services solicited in
2	this RFP.
3	Certify that neither Proposer nor its principals are presently disbarred, suspended, proposed for disbarment, declared ineligible or voluntarily excluded from participation in this transaction by any federal department or agency, any California state agency, or any local governmental agency.
4	Must have gross annual revenues of at least \$5 million in 2023 and 2022.

D. Evaluation Approach

Pursuant to the Section 4 of the HDCSA RFP, each proposal would be subject to two separate levels of evaluation. The first level of evaluation would be to cover general contractor compliance. This would assess each proposers ability to meet the City's standard provision requirements and each proposal would be evaluated for:

- (a) completeness of required documentation,
- (b) compliance with the City's administrative and general contracting requirements, and
- (c) ability to meet the minimum requirements outlined in this RFP.

Each proposal would be required to satisfactorily pass the evaluation of the first level before being evaluated for the secondary level.

The secondary level of evaluation would be to evaluate each proposer's ability to perform the services requested for in the HDCSA RFP based on their provided responses to the Questionnaire. The HDCSA RFP posed 187 questions over a range of categories and subcategories. Four primary categories (Sections) were included with the following weights

RFP Section	Factor Weight
Organizational Background, Financial Strength, Experience	Unrated
Plan Administration Support & Account Management	35%
Member Services	35%
Financial Cost	30%
Total	100%

Evaluation Methodology

A City Review Committee (Review Committee) evaluated the proposals and responses to each HDCSA RFP question and assigned one of five qualitative evaluation ratings (Unsatisfactory, Marginal, Satisfactory, Very Good and Excellent). The qualitative analysis was applied to these HDCSA RFP sections:

- Plan Administration Support & Account Management
- Member Services
- Financial Cost

Per Section 4 of the HDCSA RFP, the qualitative evaluation determination categories, and associated indicators, are provided in Attachment A.

Based on the Review Committee's evaluation of the responses, a numerical value was assigned, one through five, to each qualitative score in the following manner:

(a)	Excellent =	5 points
(b)	Very Good =	4 points
(c)	Satisfactory =	3 points
(d)	Marginal =	2 points
(e)	Unsatisfactory =	1 point

In addition to the qualitative scoring some questions in the Financial Cost section that directly related to the proposed cost component were scored quantitatively with a numerical value of one (1) to five (5). Per Section 4 of the HDCSA RFP, the quantitative evaluation determination categories, and associated indicators, are provided in Attachment A.

The qualitative and quantitative evaluation ratings were based on the Review Committee's assessment of the responses. The Review Committee was also supported by analysis performed by the LAwell Program consultant, Keenan & Associates (Keenan), who separately peer reviewed and scored each proposal. The analysis performed by Keenan was relative to objective assessments as well as relative to the responses of the other Proposers. A copy of the evaluation determination and associated indicators for the Qualitative and Quantitative categories are included as **Attachment A**.

The Review Committee (City of Los Angeles) rating is used to determine selection of a winning bidder. The evaluation rating performed by Keenan is a separate and independent review performed as a peer review and utilizing their subject matter expertise.

E. Proposals Submitted

The submitted proposals from Ameriflex, Health Equity, Inspira, ThrivePass, TASC and VOYA were all deemed as qualified for consideration under the first level of evaluation. Each Proposer met the minimum qualifications asked of the HDCSA RFP and each submitted proposal demonstrated compliance with the City's general contracting requirements as identified in the HDCSA RFP. All six Proposers provided a completed questionnaire workbook, as required by the HDCSA RFP.

A summary of each of the proposal pricing and highlights for each Proposer's answers to the questionnaire, by subsection, are provided in the summary slide deck that was prepared by Keenan in **Attachment B**. Additionally, a copy of the questionnaire with copies of Proposer answers shown side-by-side is provided in **Attachment C**.

All six proposals were found to have many similarities in terms of overall services as outlined through their questionnaire responses, but there were varying levels of differences as well. Some of the more notable differences between Proposer responses to the questionnaire pertaining to the three scored categories of Plan Administration Support & Account Management, Member Services, and Financial Cost are listed below:

Plan Administration Support & Account Management

- Services Outsourced / Services Outsourced Overseas
 - o TASC, ThrivePass, and Voya: These three proposers indicated that the services sought under the RFP would not be outsourced and/or handled by their respective employees.
 - Ameriflex, Health Equity, and Inspira: These three proposers indicated that they partner with various vendors to support certain services, of which, some are overseas.
- Electronic Administration of Grace Period & Roll Over
 - All six proposers indicated that they can administer a grace period or roll over option for the HCFSA and DCRA benefits.
- Two (2) Debit Cards Provided at No Charge
 - All six proposers indicated that they will provide HCFSA and DCRA account holders with two (2) cards at no additional cost.
 - Two proposers, TASC and Inspira, indicated that account holders can request additional debit cards at no additional cost. Inspira did note that only one card is issued automatically.

Pre-Fund Terms

- Ameriflex, TASC, and ThrivePass: These three proposers indicated that they would agree to the City's preferred funding method whereby funding is sent on a weekly basis to Proposer with no pre-fund deposit.
- Health Equity, Inspira, and Voya: These three proposers indicated a preference for a
 different funding method as follows by each response: City to pre-fund the HCFSA and
 DCRA benefits followed by weekly funding replenishment, Daily ACH debit based on a
 Proposer determined amount, and Proposer will pre-fund the claims and invoice the City
 weekly.

No Charge for Customized Reports

- Ameriflex, TASC, ThrivePass and Voya: These four proposers indicated that they can create customized reports for the City by request without an additional charge.
- Health Equity and Inspira: These two Proposers indicated that customized reports will incur an additional charge though Inspira did note that their standard report offerings are quite extensive and so customized reports are generally not needed.

City Ability to Audit Services

- Ameriflex, Health Equity, Inspira and Voya: These four Proposers agreed to the City's requested ability to audit services. Inspira agreed with the caveat that the audit will be at the expense of the City.
- TASC and ThrivePass: These two Proposers indicated that the City can self-audit via their client portal or that anSystem and Organization Controls audit report can be provided to the City.

Claims - Financial Accuracy

 All six Proposers indicated an accuracy rating of 98% or better over the past 12 months for their proposed claim office.

Claims - Turnaround Time

 The reported average turnaround time ranges from one day (TASC), one to two days (ThrivePass), two days (Inspira), two to four days (Voya) and three to five days (Ameriflex and Health Equity).

Member Services

• Call Abandonment Rate

 The reported call abandonment rate for the past 12 month period ranged from a little over 1% (Health Equity and Inspira) to about 5% (ThrivePass) with the remaining three somewhere in the middle at about 2% to 3% (Voya, Ameriflex and TASC).

• Claim Denial Rate for 2023

- The reported claim denial rate ranged from about 3% (Ameriflex and ThrivePass) to around 14% (Health Equity and TASC) with Voya roughly in-between at about 7%.
- o Inspira responded that they do not currently track this particular statistic.

Customer Service Hours

- Health Equity, Inspira, and Voya: The call centers for these three Proposers operate 24 hours a day, seven days a week, 365 days a year.
- Ameriflex, TASC and ThrivePass: These three Proposers offer expanded hours (beyond Monday through Friday, 8 AM to 5 PM PST) for participants. Additionally, Ameriflex also offers Saturday hours.

Customer Service Access

- o All six Proposers offer additional communication tools for members.
- o Ameriflex: Online portal, text messaging, online live chat, and email.
- Health Equity: Online portal, online live chat and Interactive Voice Response (IVR).
- o Inspira: Online portal, IVR, online live chat, and email.
- TASC: Online portal and online messaging.

- ThrivePass: IVR and email.
- Voya: Online portal, online messaging, IVR, and email.

Unit Staff Dedicated to City

- Ameriflex, Inspira, ThrivePass and Voya: These four Proposers indicated that they would provide a 100% dedicated unit/staff to the City's account. Some Proposers have additionally identified a specific employee and specific account team members to support the City.
- Health Equity and TASC: These two Proposers proposed a shared unit staff or were unclear in their response.

• Call Center Team Dedicated to City

- Ameriflex, ThrivePass and Voya: These three Proposers indicated that they would assign
 or be open to assigning dedicated Customer Service Representatives for the City's
 account.
- Health Equity, Inspira and TASC: These three Proposers proposed a shared customer service team setup for the City's account.
- Website Language (Other than English) and Disabled Access
 - All six Proposers provide assistive technology for disabled access but only Ameriflex's website is available in both English and Spanish.

Satisfaction Survey Results - 2023

 With the exception of Health Equity, all Proposers provided customer satisfaction survey data. However, a comparison of the survey data as the survey methodology varies from Proposer to Proposer and none provided member satisfaction survey data from their five largest public sector clients.

Financial Cost

Implementation Credit

- Ameriflex, Health Equity, ThrivePass, and Voya did not propose any implementation credit for the City and as the incumbent, Health Equity, implementation would not be applicable.
- o Inspira and TASC both made a credit proposal. \$5k credit proposed by the former and a waiver of implementation fees was proposed by the latter.

• Per Participant Per Month Fee

 The Per Participant Per Month Fee (PPPM Fee) is as follows: Ameriflex \$3.00, Health Equity \$2.50, Inspira \$2.90, TASC \$2.60, ThrivePass \$2.98, and Voya \$2.95. For comparison, the current PMPM Fee is \$3.00.

F. Analysis and Scoring

All six submitted proposals were evaluated and scored by the Review Committee. Each proposal was also evaluated and scored by Keenan, as a peer review. However, the Review Committee's rating serves as the final score and determination of the resulting recommendation.

Overall, while the Review Committee's scores between the six proposals were fairly close and each Proposer was deemed as capable of providing the general HCFSA and DCRA services for the LAwell Program at a base level, some proposals were consistently more aligned with the HDCSA RFPs objectives. At the end of the evaluation, Ameriflex's proposal was ranked ahead of the other proposals with TASC, Voya, Health Equity, Inspira and ThrivePass following (Ranked in descending score order) afterwards. The Review Committee's averaged scoring results for the proposals are shown in the chart below in alphabetical order:

CITY	Ameriflex	Health Equity	Inspira	TASC	ThrivePass	Voya
Category	Score	Score	Score	Score	Score	Score
Organizational Background, Financial Strength, Experience	Unrated	Unrated	Unrated	Unrated	Unrated	Unrated
Plan Administration Support & Account Management	525	505	491	512	490	506
Member Services	77	77	73	76	70	76
Financial Cost	55	52	53	59	55	59
Total	657	634	617	647	615	641

Keenan's review and scoring results were also fairly close but differed slightly from the City. Like the City, Ameriflex's proposal was ranked ahead of the other proposals but with Voya, Health Equity, TASC, ThrivePass and Inspira following (Ranked in descending score order) afterwards. Keenan's peer-reviewed averaged scoring results for the proposals are shown in the chart below in alphabetical order:

KEENAN	Ameriflex	Health Equity	Inspira	TASC	ThrivePass	Voya
Category	Score	Score	Score	Score	Score	Score
Organizational Background, Financial Strength, Experience	Unrated	Unrated	Unrated	Unrated	Unrated	Unrated
Plan Administration Support & Account Management	525	475	471	482	482	504
Member Services	74	78	70	69	69	76
Financial Cost	49	56	47	57	53	59
Total	648	609	588	608	604	639

HDCSA RFP Scoring and Evaluation Rules Recap

As stated in the HDCSA RFP and previously in this report, each of the six proposals were scored based on the information provided in each proposal. No Proposer was permitted to alter, modify, or enhance its proposal after its submission. The City did reach out to all six Proposers for clarification to certain responses, as outlined in the HDCSA RFP Section 3.1.7. However, any response was treated as additional information, separate from and not used in conjunction with the original response for scoring purposes. Responses to clarifying questions were not allowed to alter the original answer. Should the City move forward with a recommendation to select a Proposer, the City may then address additional matters through a pre-award negotiation to obtain satisfactory agreement of service terms, as outlined in the HDCSA RFP section 6.0.

Scoring Overview

As stated previously, and in accordance with the HDCSA RFP evaluation criteria, a mix of qualitative and quantitative evaluation criteria was used to evaluate all three rated category sections of the questionnaire and a numerical value was assigned to each rated question. Overall, the Review Committee and Keenan found that each Proposer's response generally met the expected standards of each category. There were some variances in the qualitative and quantitative scoring amongst the proposals, however, they were relatively minor. All six Proposers were deemed as capable of providing the general HCFSA and DCRA services for the LAwell Program at a base level. From a high level, the

Review Committee noted some distinct differences between each proposal and have highlighted some of these components below.

AMERIFLEX

• Plan Administration Support & Account Management

Ameriflex is able to administer the grace period / roll over options for the HCFSA and DCRA benefits; is willing to provide two debit cards to plan participants; agreed to City's preferred funding method of sending funding to vendor on a weekly basis with no pre-fund requirement; can provide customized reports at no charge to City; agreed to the City's ability to audit services; indicated a claim accuracy rating of 99.5%; and boast a low turnover rate of less than 1% in 2023 for their claims staff. However, Ameriflex average claims turnaround takes about three to five business days, longer than most of the other Proposers.

Member Services

Ameriflex's call center call abandonment rate was a little over 2%, placing them fourth amongst all proposers; the call center itself is available Monday through Friday from 8 AM to 9 PM EST (or 5:00am to 6:00pm PST) and on Saturday from 10 AM to 2 PM EST (or 7:00am to 11am PST); provides additional communication tools (online portal, text messaging, online live chat, and email) for members; their website offers assistive technology for disabled access and is also available in Spanish; and agreed to provide unit staff and call center team that would be 100% dedicated to the City.

Financial Cost

Ameriflex offered a per participant per month fee of \$3.00, highest amongst all Proposers but matching the current rate; and the rate is guaranteed for five years. However, Ameriflex did not agree to the 16% minimum amount at risk for the Performance Guarantees (PG), instead, offered 10% as the amount at risk instead and also requested 21 modifications for the PGs.

HEALTH EQUITY

• Plan Administration Support & Account Management

Health Equity is able to administer the grace period / roll over options for the HCFSA and DCRA benefits; is willing to provide two debit cards to plan participants; agreed to the City's ability to audit services; and indicated a claim accuracy rating of 99%. However, Health Equity does ask that the City pre-fund the HCFSA and DCRA benefits; would charge for customized reports; their average claims turnaround took longer than most of the other proposers; and while they provide electronic communications related materials to new members/enrollees, printed communication would be an additional cost.

Member Services

Health Equity's call center call abandonment rate ranked first amongst all proposers; the call center itself is available 24/7 for members to access; provides two additional communication tools (online portal & online chat) for members; and their website offers assistive technology

for disabled access. However, Health Equity's 2023 claim denial rate is higher than other Proposers; their website is available in English only; and are unable to provide staff or customer service members dedicated 100% to the City.

Financial Cost

Health Equity offered a per participant per month fee of \$2.50 (the lowest rate offered amongst all Propoers); rate is guaranteed for five years; agreed to the 16% amount at risk for the PGs; and implementation costs (if any) would be minimal as they are the incumbent . However, Health Equity noted that it does charge a 3% penalty fee for late payments, and the City would need to negotiate PG improvements.

INSPIRA

• Plan Administration Support & Account Management

Inspira is able to administer the grace period / roll over options for the HCFSA and DCRA benefits; is willing to provide two debit cards to plan participants (one card is provided automatically but additional cards can be requested at no charge); agreed to the City's ability to audit services; indicated a claim accuracy rating of 98%; and indicated an average claims turnaround time of two days. However, Inspira would prefer to do a daily pull against the City's accounts (based on an amount to be determined by Inspira) when it comes to funding; would charge for customized reports; would, upon termination resulting agreement, provide files / data / reports to the City (but not the subsequent HDCSA services provider) in their standard format; and customized reports would be an additional cost.

Member Services

Inspira's call center call abandonment rate ranked second just behind Health Equity; the call center itself is available 24/7 for members to access; additional communication tools (online portal, online chat, text messaging, and email) are available; and their website offers assistive technology for disabled access. However, Inspira does not track claim denial statistics so a comparison cannot be made relative to the other Proposers, their website is only available in English; and they are unable to provide call center or unit staff that would be 100% dedicated to the City.

Financial Cost

Inspira offered a per participant per month fee of \$2.90; rate is guaranteed for three years (rate caps offered for years four and five); agreed to the 16% amount at risk for the PGs; only modified six PGs; and was the only Proposer willing to offer an implementation credit (\$5,000) to the City.

TASC

• Plan Administration Support & Account Management

TASC is able to administer the grace period / roll over options for the HCFSA and DCRA benefits; is willing to provide two debit cards to plan participants; indicated a claim accuracy rating of 99.9%; indicated an one day turnaround average for claims; can provide customized reports at no charge to City; agreed to allow City to audit services (Self-audit using client portal); and agreed to City's preferred funding method of sending funding to vendor on a weekly basis with no pre-fund requirement. However, TASC does not offer credit monitoring protection/monitoring to members in the event of a breach (TASC advised that ID Theft was provided in the past but had low participation rates and as such, it is not cost effective for clients) and they did not confirm they would mail statements to members who do not have an email address on file.

Member Services

TASC's call center call abandonment rate of 3% placed it fifth amongst all Proposers, the call center itself is available Monday through Friday from 5 AM to 5 PM PST; additional communication tools (online portal and online messaging) are available; and their website offers assistive technology for disabled access. However, TASC's 2023 claim denial rate is lower than Health Equity but higher than the other Proposers; did not provide statistics for average call resolution time (opting instead to provide a first call resolution rate); their website is only available in English; and they are unable to provide call center staff that would be 100% dedicated to the City (but premium queue service is available for the City).

Financial Cost

TASC offered a per participant per month fee of \$2.60 (the second lowest); rate is guaranteed for five years; agreed to the 16% amount at risk for the PGs; agreed to all PGs left certain PGs unanswered; and agreed to waive implementation fees.

ThrivePass

• Plan Administration Support & Account Management

ThrivePass is able to administer the grace period / roll over options for the HCFSA and DCRA benefits; is willing to provide two debit cards to plan participants; indicated a claim accuracy rating of 99%; indicated an one to two day turnaround average for claims; can provide customized reports at no charge to City; and agreed to City's preferred funding method of sending funding to vendor on a weekly basis with no pre-fund requirement. However, ThrivePass does not allow for external companies to audit (but has a System and Organization Controls audit that can be provided to the City) and is unable to provide a microsite for the City.

Member Services

ThrivePass's 2023 3% claim denial rate was the second lowest amongst all Proposers, their call center is available Monday through Friday from 6 AM to 6 PM PST; additional communication tools (email and IVR after hours) are available; agreed to provide unit staff and call center team

that would be 100% dedicated to the City; and their website offers assistive technology for disabled access. However, ThrivePass's call center call abandonment rate of 5% was the highest amongst all Proposers; did not provide statistics for average call resolution time; and their website is only available in English.

Financial Cost

ThrivePass offered a per participant per month fee of \$2.98 (the second highest); rate is guaranteed for five years; responded no to all requested PGs but indicated the amount at risk as 100%; and did not propose any implementation credit.

<u>VOYA</u>

• Plan Administration Support & Account Management

Voya is able to administer the grace period / roll over options for the HCFSA and DCRA benefits; is willing to provide two debit cards to plan participants; indicated a claim accuracy rating of 99%; can provide customized reports at no charge to City; and agreed to the City's ability to audit services. However, Voya did not agree to City's preferred funding method and offered to pre-fund the claims themselves and invoice the City weekly for funding; and indicated an one to two day turnaround average for claims.

Member Services

Voya's call center call abandonment rate of 2% placed it third amongst all Proposers; the call center itself is available 24/7 for members to access; their 2023 claim denial rate was about 6 6% to 8%placing them third; additional communication tools (online portal, online messaging, email and IVR) are available; agreed to provide unit staff and call center team that would be 100% dedicated to the City; and their website offers assistive technology for disabled access.

Financial Cost

Voya offered a per participant per month fee of \$2.95 (the fourth highest); rate is guaranteed for five years; agreed to the 16% amount at risk for the PGs; agreed to 14 PGs, modified 3 PGs and did not agree to 3 PGs; and did not propose any implementation credit.

Overall Findings

The Review Committee's overall scoring results show a close scoring in several sections amongst the Proposers. However, upon completion of the evaluation, the Review Committee's score resulted in Ameriflex being the highest scored proposal. Ameriflex scored well in the Plan Administration Support & Account Management and Member Services sections and while they fell behind in the Financial Cost section, they scored well enough to place first in the overall score.

Ameriflex scored more consistently across the Plan Administration Support & Account Management and Member Services sections and were more consistently aligned with the HDCSA RFP objectives, including but not limited to:

Providing the Scope of Services sought under the HDCSA RFP

- Enhancing HCFSA and DCRA plan education and communications
- Improving the customer service experience for members
- Being responsive and flexible to the needs of the City.

Ameriflex agreed to the City's preferred funding method; agreed to provide customized reports at no charge; has maintained a high claims financial accuracy rate; a low call abandonment and claim denial rate; their customer service center has weekend hours; and are willing to dedicate unit staff and call center staff specifically to the City. However, their customer service center is not available 24 / 7 / 365 days as offered by some of the other Proposers. This is mitigated in some measure as they have other communication methods available for members to utilize such as text messaging, online live chat, email, and the aforementioned Saturday hours. And, while Ameriflex offered a Per Participant Per Month Fee that matched the current rate (and guaranteed it for five years), all of the other proposals offered lower rates and Ameriflex's PGs also fell short of the other proposals.

Selected Bidder

As previously discussed, the HDCSA RFP sought a qualified vendor who can provide account administration services and who could potentially enhance both the City's administration and the members' experience of these services. All proposers demonstrated abilities to provide account administration services. However, the review committee has found that the proposal provided by Ameriflex provides the best combination of items which will meet the needs of servicing the account and potentially enhance the experience of employees and City administration staff. Ameriflex's combination of 100% dedicated customer service staff and an array of customization options should enable participants to receive the information that they need consistently, and help to enable them to be more successful in utilizing their accounts correctly and efficiently.

Incorporation into LAwell Program

The proposal submitted by Ameriflex is a standalone offer. Employees who enroll into the LAwell Program's separate Transit and Parking spending accounts will need to separately enroll with the selected vendor for those accounts (Please note that Ameriflex did not submit a proposal for that separate Request For Proposals, and a selection for that separate service is not yet known). The standalone offer was not uncommon for submitted bidders, and it should be noted that the LAwell Programs current incumbent (Health Equity) also provided a standalone offer for the HDCSA RFP. The concept of a standalone offer may result in an increased fee for participants who enroll into all four (4) of the offered accounts [(a) Healthcare, (b) Dependent Care, (c) Transit, and (d) Parking], or a combination between the Healthcare/Dependent Care and Transit/Parking accounts, but it would have no resulted financial change to employees who only enrolled into Healthcare and/or Dependent Care accounts. This is a fee model change from the current provided service which allows for joint enrollment and a shared fee model. Despite the fee model change for some members, the review committee strongly feels that the potential enhanced experience justifies the change.

The actual member experience of enrolling into an election, establishing an account, and having their election correctly pass through to the City's payroll is something for the City and the selected proposer to fine-tune. Each proposer was asked to submit an overall implementation plan, which was an unrated

question of the questionnaire. The City will need to negotiate further with the selected bidder on how to execute the implementation plan and to further develop the member experience.

Potential Negotiation Components

Pursuant to Section 6.0, the successful Proposer(s) may be required to attend negotiation meetings where the City and the successful proposer will be able to discuss and negotiate contract requirements, prices/premiums, service level agreements, detailed scope of work specifications, ordering, invoicing, delivery, receiving and payment procedures, etc. in order to insure successful administration of the contract. Should Ameriflex be selected, the City will negotiate with them in multiple of these areas. At a minimum, the City will negotiate with Ameriflex on the Per Participant Per Month (PMPM) fee rate, the PGs (aka "service level agreements") amount at risk and metrics, and implementation cost and transition.

G. Recommendation

After the review and assessment of the six proposals submitted in response to the HDCSA RFP, the Review Committee has determined that the LAwell Program and its members may benefit from the proposal submitted by Ameriflex, pending the successful outcome of contractual negotiations in specific categories inclusive of price and performance guarantees (service level agreements). Under the stipulation that Ameriflex is able to negotiate with the City and mutual terms are agreed upon to sufficiently satisfy multiple areas inclusive of contract requirements, prices/premiums, and service level agreements within the next 60 days. If negotiations with Ameriflex are unsuccessful by this deadline, the City may then begin negotiations with the next most qualified proposal, as outlined in RFP Sections 3.1.14 and 6.0.

Therefore, it is recommended that the JLMBC should recommend to the to General Manager of the Personnel Department that Ameriflex be selected as the provider of the LAwell Program's Health and Dependent Care Spending Account Services for a three-year contract beginning January 1, 2025 through December 31, 2027 with an option for up to two additional one-year terms, pending successful negotiations by the Personnel Department with Ameriflex for, at minimum, contract requirements, prices/premiums, and service level agreement.

Qualitative Evaluation Determination	Indicators						
(a) Excellent	 Response meets all and substantially exceeds many requirements. Response contains elements where there is significant increased value, innovation, technology, and/or program stability. Response demonstrates exceptional success with initiatives related to scope of services and key success metrics. No significant weaknesses identified. 						
(b) Very Good	 Response meets all requirements and exceeds some requirements. Response contains elements where there is some increased value, innovation, technology, and/or program stability. Response demonstrates some success with initiatives related to scope of services and key success metrics. No significant weaknesses identified. 						
(c) Satisfactory	 Response meets all requirements. Response contains elements where there is some increased value, innovation, technology, and/or program stability. Response demonstrates some success with initiatives related to scope of services and key success metrics. Very few weaknesses identified. 						
(d) Marginal	 Response meets some requirements. Response does not contain or does not clearly indicate elements pertaining to value, innovation, technology, and/or program stability. Response touches upon work relative to scope of services and key success metrics but demonstrated experience and success is unclear. Weaknesses identified. 						
(e) Unsatisfactory	 Response does not meet requirements. Response contains no elements of or indication of value, innovation, technology, and/or program stability. Response does not demonstrate or touch on work relative to scope of services and key success metrics. Significant weaknesses identified. 						

Quantitative Evaluation Determination	Indicators
(5) Five	 Response meets all and substantially exceeds many requirements. Response contains elements where there is significant increased value, innovation, technology, and/or program stability. Response demonstrates exceptional success with initiatives related to scope of services and key success metrics. No significant weaknesses identified.
(4) Four	 Response meets all requirements and exceeds some requirements. Response contains elements where there is some increased value, innovation, technology, and/or program stability. Response demonstrates some success with initiatives related to scope of services and key success metrics. No significant weaknesses identified.
(3) Three	 Response meets all requirements. Response contains elements where there is some increased value, innovation, technology, and/or program stability. Response demonstrates some success with initiatives related to scope of services and key success metrics. Very few weaknesses identified.
(2) Two	 Response meets some requirements. Response does not contain or does not clearly indicate elements pertaining to value, innovation, technology, and/or program stability. Response touches upon work relative to scope of services and key success metrics but demonstrated experience and success is unclear. Weaknesses identified.
(1) One	 Response does not meet requirements. Response contains no elements of or indication of value, innovation, technology, and/or program stability. Response does not demonstrate or touch on work relative to scope of services and key success metrics. Significant weaknesses identified.

Scoring

Recommendations

Program Overview

WageWorks has been a partner of the City of Los Angeles since 2008 for the Tax Advantaged Savings Accounts

Current Participant Counts	Count
Health Care FSA Participants	2,817
Dependent Care FSA Participants	175
Both Health Care and Dependent Care Participants	422
Total	3,414

Current Plan Design

HealthCare FSA (HC FSA) – For 2024 annual election, employees can set aside from \$300 up to \$3,050.

Dependent Care FSA (DC FSA) - For 2024 annual election, employees can set aside from \$600 up to \$5,000.

The City utilizes a Grace Period

IRS Governs the maximum election amounts and it can index each year.

RFP Objectives

The RFP process was developed with the goal of achieving certain objectives, including (but not limited to):

Partner with a vendor that is responsive and flexible to the specific needs of the City

Achieve enhanced and robust Performance Guarantees

Secure a higher, more robust level of educational and communication services

Strong compliance partner

畾

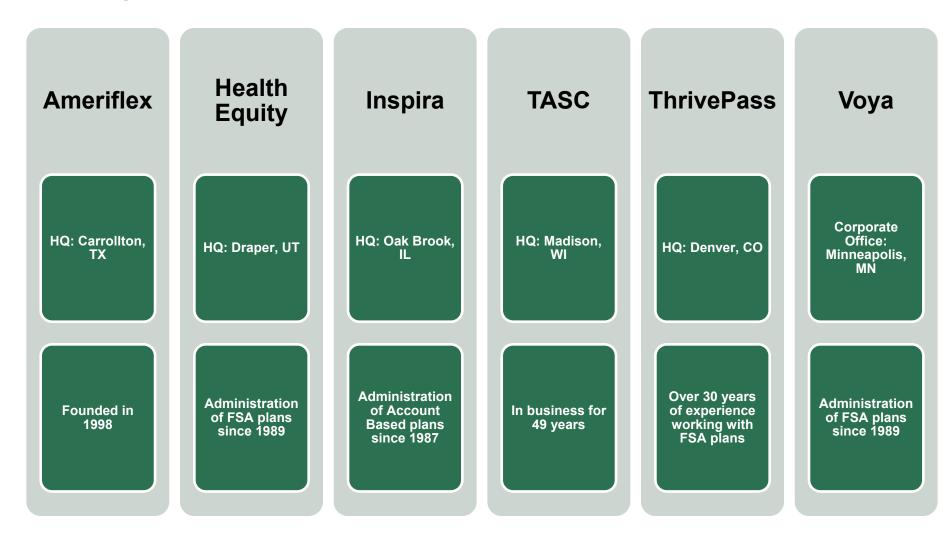

Proposers

Six proposers are bidding on the HC/DC FSA Contract:

- 1. Health Equity (Incumbent)
- 2. Ameriflex
- 3. Inspira Financial
- 4. TASC
- 5. ThrivePass
- 6. Voya

All proposers met the Minimum Proposer Requirements as specified in the RFP.

Proposers

NOTABLE PROPOSAL PROVISIONS

Recommendations

All six proposals are credible proposals with the same/similar services provided

On a cost basis, Health Equity the incumbent provides the strongest financial position with 17% reduction from current and rate guarantees for 5 years.

Ameriflex however scored #1 in that their proposal indicates a close alignment with RFP Objectives

If the City were to contract with Ameriflex we recommend use of the Post-Award Negotiation process to secure strong caveats and contract requirements such as (including but not limited to):

A stronger financial position in terms of the PEPM cost

Agreement to the full 16% PGs at risk and robust reporting metrics; Cyber Security PGs are a must.

Commitment to offset the cost of implementation and transition between providers for the City.

Further review of references.

THANK YOU

Category Organizational Background, Financial Strength, Experience	Overview	ated Unrated	tion 1 Please provide an overview of your organization and organizational structure, to include the name of your parent company (if you have one), the nature of its business, the name of your company, the length of time your firm has been providing the broad range of services included within this procurement, and headquarters.	er	Founded in 1998, Interflex Payments LLC, doing business as Ameriflex, is a closely-held third- party administrator of consumer- driven health care (CDH), COBRA and Retiree Billing Administration, and Compliance products. The company was founded in 1998 and has since become the largest and most responsive provider of uniquely featured Flexible Spending Accounts (FSAs), Dependent Care Accounts (DCAs), Qualified Transportation Benefits (QTB), Health Reimbursement Arrangements (HRAs), Health Savings Accounts (HSAs), as well as COBRA Administration, Retiree Billing and Compliance Services. Our headquarters is in Carrollton, TX (Dallas County) and we have satellite offices in Cherry Hill, NJ and Orlando, FL.	er	In 2002 HealthEquity was established to transform the healthcare industry by empowering employers and individuals with tools to help manage healthcare costs, emphasize greater cost transparency, and realize savings opportunities. We reimagined what employee benefits could be and became an innovator in providing technology-enabled services that empower consumers to make healthcare saving and spending decisions. Today we offer total benefits solutions to 120,000 clients nationwide, with our services impacting 1/7 of the American workforce. We have decades of experience in administering consumer driven benefits. Our service history includes: - COBRA administration since 1986 - Direct Bill administration since 1998 - Commuter administration since	er	Inspira Financial Health, Inc. is a leading, national administrator of consumer driven benefits. Headquartered in Oak Brook, Illinois, we have administered account-based plans since 1987. Inspira Financial Health, Inc. is wholly owned by MTC Intermediate Holdco, Inc. which is a wholly owned subsidiary of Minotaur Investment Holdings, L.P. and related intermediate subsidiary holding entities. The company is majority controlled by ABRY Partners, LLC, a private equity firm. On January 8, 2024, Inspira Financial Health, Inc. changed its name from PayFlex Systems USA, Inc. alongside a company-wide rebrand. As Inspira, we continue to be your health, wealth, retirement, and benefits provider.	er	TASC is the largest privately-held Flex TPA in the country with over 70,000 clients including several large public employers like Los Angeles Unified School District, New York State, LA Metro, LADWP, State of Arizona, City of San Diego and more. TASC is its own company, and we are not owned by a parent company. We were TASC yesterday, TASC today and will be TASC tomorrow. We offer a multitude of products for tax-advantaged benefit accounts including FSA, Commuter and HSAs. We have been in business for 49 years. TASC is headquartered in Wisconsin with employees working remotely across the country.	er	We have over 30 years of experience providing core TPA services across HSA, FSA, HRA, Commuter, COBRA, and Direct Bill/Retiree Administration. Over the last 7 years ThrivePass has developed a modern and holistic benefits platform that reduces costs and consolidates core TPA services with our proprietary Wellbeing and Rewards, Tuition Reimbursement technology, and Enrollment tools that can now support the entire employee benefits journey by helping them Enroll and Transition.	er	Voya Benefits Company LLC is a member of the Voya® family of companies. At Voya Financial®, our mission is to make a secure financial future possible for all Americans — one person, one family, one institution at a time. Accomplishing this mission means helping individuals both save for and mitigate the risk of healthcare expenses, now and in the future. Voya has been offering group insurance solutions for more than 90 years, and voluntary insurance solutions for more than 90 years. Voya Benefits and its predecessor companies have been providing FSA administration since 1989. With our HSA and FSA offering, we are focused on fundamentally changing the consumer experience related to these accounts. Voya Benefits wants to integrate decision-making across a consumer's full suite of accounts (e.g., 401k, IRA, HSA) and ensure they have a complete understanding of the value of

How will you ensure excellent service and support for the duration of the contract?		Ameriflex will serve the City of Los Angeles by thoroughly understanding its unique needs and providing customized, scalable solutions to exceed its short and long-term goals. We integrate well with groups of all sizes and we understand the needs of governmental employers differ from those of the private sector delivering quality services on-time and within budgets. Some of our current government HCFSA/DCRA clients include, but are limited to; the City of Milwaukee, WI, the City of Columbus, OH, the City of Jacksonville, FL, Wake County Public School System, NC, Gary/Chicago International Airport, and Anne Arundel County Government, MD to name a few. We currently serve public and private-sector clients that have HCFSA and DCRA programs for a combined, approximate two-million employees; nearly 200,000 of whom are HCFSA and DCRA participants.		The city of Los Angeles is a current client for the services requested in this RFP. HealthEquity's Member Services team has been built for scalability, with no limit or maximum capacity for this important aspect of our business. We forecast account growth and associated contact volume based upon historical trends, then plan staffing levels to create realistic hiring plans. Our hybrid in-office and at-home staffing model allows us to scale beyond the physical constraints a single site solution might impose. We look forward to any amount of anticipated growth and are committed to staffing accordingly. We employ quality control programs for every facet of benefit administration, through both systematic monitoring and internal auditing. Quality Assurance A quality team regularly audits processes, monitors performance		Inspira has extensive experience managing clients of all sizes with varying complexities. Our focus on innovative solutions, expertise with excellence, and dedicated support ensures that the City of Los Angeles will receive the service and support you need for throughout the contract's duration. Our 92% retention rate proves the success of our cuttingedge solutions and superior service. We understand that public sector clients and their employees need high service levels and costeffectiveness. To this end, we empower our account managers and customer service representatives with the tools and support they need to ensure you receive excellent service and support.		TASC has a division specifically that caters to clients the size of the City our Large Market Public Sector Division. We have a niche in large deployments for government entities. Our clients include New York State (200,000 eligibles), LAUSD, City of Baltimore, State of Arizona, State of Louisiana, Commonwealth of Massachusetts, State of Connecticut to name a few. We assign clients like the City a dedicated Specialty Implementation Manager. We implement huge clients routinely as this is routine and customary for us. TASC will assign a day-to-day Account Manager and an Executive Sponsor to ensure optimal servicing for this contract.		ThrivePass has over 30 years of experience providing core TPA services across HSA, FSA, HRA, Commuter, COBRA, and Direct Bill/Retiree Administration. We have experience will 40,000 life groups down to 5 employees. The city will get a dedicated RM who will be assigned to the City's plan.		They City of Los Angeles is currently a Voya client for Retirement services. To supplement our relationship, the City will be assigned dedicated National Implementation Manager, Debbie Tatge, with experience leading implementation projects of this size. Deb will work closely with National Account Executive Jennifer Takahashi, and National Account Client Specialist Lisa Machamer, all of whom have extensive experience with clients like the City of Los Angeles. The City will have a dedicated team providing direct phone and email contact to ensure a smooth transition and excellent ongoing service relationship.

Organizational Regulatory Background, Complianc Financial Strength, Experience		Describe what procedures and policies you have in place to protect against, and provide disclosure of, any potential or perceived conflict of interest involving relationships your firm may have with service providers for which you may also be asked to conduct performance reviews or otherwise evaluate for the City's Plan. To what extent and under what circumstances do the individuals who would be directly servicing the City's account personally meet with service providers that could be actual or potential City clients?	We enforce rigorous policies to address and disclose conflicts of interest with service providers for the City's Plan. We prioritize transparency through a clear framework for identification and disclosure, complemented by mandated HIPAA and PHI training for all employees. Strict guidelines limit personal interactions between those servicing the City's account and potential service providers who are also City clients. These measures ensure objectivity and uphold ethical standards in our evaluation processes.	HealthEquity maintains a robust Corporate Governance program, including a Code of Business Conduct and Ethics. All members of the board of directors, executive officers, and employees of the HealthEquity and the HealthEquity's subsidiaries are required to be familiar with the Code, comply with its provisions and report any suspected violations. The Code contains an extensive section on Conflicts of Interest. Protocols are also in place where employees must report any potential conflicts. Directors and executive officers of HealthEquity must seek determinations and waivers of potential conflicts of interest from the Nominating and Corporate Governance Committee of the Board of Directors. The General Counsel keeps accurate records of all requests for and grants of waivers of conflicts of interest.	Not Applicable	TASC ensures employees are not placed in positions where an apparent or perceived conflict of interest may occur. Senior Associates are responsible for ensuring compliance and training for the Organizational Conflict of Interest Mitigation Plan. NDA agreement is a pre-employment requirement for all employees to sign. Our Confidentially Speaking reporting program guarantees enterprise employees can report concerns or communicate regarding sensitive information. Reported issues are fully investigated. The enterprise will take appropriate action against any person found to violate policy, or any applicable law. There are no circumstances where TASC would personally meet with the City's service providers.	When responding to an RFP ThrivePass will see if there are any conflicts of interests as we have employees in numerous states. If we do find such conflict of interest we will notify the client.	No known conflict with the City exists. We report potential conflicts of interest promptly to management, as needed, to help us manage such appropriately. In dealing with these potential conflicts, we require integrity, the use of good judgment and discretion exercised in a manner expected by this Code, Company policies and our Corporate Values. We understand certain conflicts simply cannot be permitted, particularly employees accepting employment with or appointment by a competitor of Voya Financial (e.g., acting as a financial or tax planner, representative or agent of another financial services firm) or practicing as an attorney.
Organizational Regulatory Background, Complianc Financial Strength, Experience Organizational Regulatory Background, Complianc Financial Strength, Experience	Unrated 1	lis Vendor now the subject of any litigation in which an adverse decision might result in a material change in the firm's financial position or future viability? Identify and describe any past, pending or threatened judicial or administrative litigation (including lawsuits or protests) in which you have litigated against a client or prospective client, within the past five years, related to the type of services you are proposing. Indicate the reasons for the lawsuit/protest and the outcome. Provide contact information for the entity sued or challenged.	N/A We have no past, previous, or pending lawsuits, legal actions, investigations, and/or threatened legal proceedings of any kind.	No From time-to-time, we may be subject to various judicial or administrative litigation that arises in the normal course of our business activities. We do not provide any additional information.	Not Applicable	No Within the last five years, TASC has not been involved in any material legal matters.	No No current or past litigations.	No In its role as service provider for its clients, Voya Benefits Company from time to time is named as a defendant in litigation. Although it is not possible to predict the outcome of pending or threatened litigation, there is no past, pending or threatened litigation that has had or is likely to have a material adverse impact on VBC's ability to perform services under the proposed contract.

Plan Administration Support & Account Management	Overview Rated	22	What percentage of your services solicited in this RFP would be outsourced to other firms or subcontracted? -Bor services representing more than 5% of the total fee proposed for this RFP, identify all providers and their functions. -Bor services that will be outsourced or subcontracted overseas to non-U.S. service providers, please identify the overseas providers, the % of services that will be outsourced or subcontracted, and their functions.		Ameriflex is 100% liable for the administration of the City's HCFSA and DCRA programs for the duration on the contract. We partner with the following vendors for our book of business: 1) Fiserv provides secure processing of debit card-related transactions, 2) NTT Data Services will perform claims adjudication services for Ameriflex, 3) We outsource our primary remote redundant data center to Armor, 4) TPx Communications performs network management and phone services, as well as provided barcoding services for claim-related faxes, allowing Ameriflex to accept faxes from a participant with Data Matrix Code identification, thereby linking it to the participant's MyAmeriflex account, 5) The Bancorp Bank will issue preloaded Ameriflex debit cards to enrolled participants, and 6) UMB Bank provides printing services for reimbursement checks.		While HealthEquity provides core benefit administration services internally, we partner with expert partners to support key services. Key service partners include: - Wells Fargo: Partner since 2012 providing ACH payment processing. - DataBank: Partner since 2013 providing hosting services for platform (data center backup). - RackSpace: Partner since 2007 providing hosting services for the platform. - TTEC/Verint: Partner since 2006 providing behavioral analytics services. - Conduent: Partner since 1995 providing chat, call center support, and claims processing. - Language Line: Partner since 2006 providing foreign language interpreter services. - Fiserv: Partner since 2006 providing debit card production and transaction processing, explanations of benefits, and check/direct deposit.		Our core services are managed inhouse; however, we utilize the following subcontractors to support claims administration, customer service, and non-discrimination testing: Alight Services: Call center customer service Location: Chicago Length of relationship: 2020 Sagility Services: Offshore vendor services for claims Location: India Length of Relationship: 2014 Percentage Offshored: approximately 50% for total book of business EXL Services Services: Offshore vendor services for call center and claims Location: Philippines Length of relationship: 2014 Percentage Offshored: approximately 30% for total book of business		0% will be outsourced.		No services will be outsourced, all administration is handled by ThrivePass employees. FSA and DCAP is subcontracted through Alegeus with a Proprietary backend platform.		All services will be provided by Voya employees.

Plan documents are provided as a customizable template.		We provide a standar Document template f additional fee. For cu the City can review w counsel and make cha needed to fit their spe design.	Plan documents provided are customized by TASC for the specific plan, services and eligiblity.	Plan documents are customized by ThrivePass for the City's specific plan.	Voya Benefits will provide a plan document specific to the City of Los Angeles plan features.

Plan Administration Support & Account Management	Plan Sponsor Services/Re ports	Rated	29 The City's preferred method is to send funding on a weekly basis with no prefund/capital deposit. Can you administer that method? If not, please exaplain how you can administer.		es		No. HealthEquity requires client prefunding to ensure their FSA/HRA program(s) consistently have adequate funds to cover and quickly reimburse members' claims. Reserve funding seeks to avoid any deficit in the client's prefund balances to ensure all member-approved claims are paid without interruption. Any excess balance of prefund amounts is returned after the end of the runout period each year or as otherwise directed by the employer. A percent of the total annual plan liability is requested to be held on the employer's behalf as a reserve. This percentage varies based upon the funding frequency. Reserve funding will be requested at the beginning of each new plan year. Clients receive an emailed invoice identifying the amount to be replenished to meet the target percentage.		Our standard funding arrangement is a daily pull against the plan sponsor's designated corporate account. On each funding day, we notify you of the amount to be funded. We then initiate an ACH debit transaction to pull funds from your designated account for the identified amount. Other funding arrangements are available.		Yes, TASC can administer the City's preferred method of remitting funding for claims paid on a weekly basis and will agree to waive/credit pre-fund/ capital deposit.		Yes	o irr AA who till uu PP EE roisis is so irr irr irr irr irr irr irr irr irr ir	Voya pays claims in advance from one of our bank accounts. This includes debit card transactions. An invoice will go out to the client weekly via email for claims paid he prior week. We can email an inlimited number of contacts. Payments can be made through iffer, ACH or paper check. Backup eporting is included and payment is due 2 days after invoice. Because we pay claims in advance we do require a small Maintenance Deposit (2-weeks worth of contributions) to accilitate this. This deposit is etained until the service is no onger provided, at which point it can be used to pay the final invoice or returned as part of the blan closeout process. The tandard for administration fees is o bill monthly in arrears (ETF, ACH or paper check). Payment is Met 15. Voya is open to legotiating the amount and requency of invoicing for claims that it is and the standard for claims that and the days of invoicing for claims that is a standard for administration fees is one of the standard for administration fees is

Plan Administration Support & Account Management	Plan Sponsor Services/F ports	Unrated	57 Describe any other media or technology your firm could bring to enhance this program specifically and/or employer benefits programs more broadly.	The Ameriflex card can be added to mobile wallets like Apply Pay, Google Pay, and Samsung Pag which allow participants an easy contactless payment feature when using their smartphones at the point-of-sale for added convenience and security. Additionally, our customer service center can accommodate any native language, via live chat and voice services. Participants no long need to hold onto receipts. Our receipt capture integration allows participants to take a picture of or upload receipts with their smartphones or electronic devices and store receipts which simplifies record-keeping and documentation. Our participants portal has budgeting tools and calculators that help participants estimate healthcare expenses, plan their HCFSA contributions effectively, and make informed decisions about managing their HCFSA funds throughout the plan year. We offer virtual card provisions that allow participants to access a digital version of their	Engage360 is our scalable, year- round member engagement program designed to deliver the right message to the right member at the right moment. Our proactive, ongoing, and targeted programs help members get more from their healthcare dollars while relieving healthcare costs. Through our exclusive behavior- based email campaigns, we engage members with targeted content relevant to their benefit choices. All emails, message center posts, and showcased images on our member portal pages are created to inform, educate, and inspire members. Engage360 also features a robust digital gallery of content, tools, and insights proven to drive adoption, maximize utilization, and measure success. Our Engage360 library contains fully customizable content for our clients that includes:	We maintain and frequently update the Resources & Education section of our website with educational content, including blog articles, FAQs, and a glossary.	TASC has made tremendous investments to innovate and develop its Universal Benefit Account platform. We will continue to execute our 3-year innovation roadmap that will expand our capabilities and account offerings. All new features would include the work needed to make the new functionality accessible to all users. TASC's innovation strategy is focused on maximizing security, improving the overall experience of our participants, clients and distributors, and improving the health, wealth and well-being of our customers, employees and community.	On the member portal there are resources for the employees to better understand how the benefits work located under Resources.	The City will have a custom Employee Benefit Resource Center (EBRC) microsite built on voya.com. Employees will be able to see all of their Voya Health and Health Account Solutions plans on this site. This will include plan documents, videos on how the plans work, relevant forms (such as FSA eligible expense list), and other documents, as well as links to quickly file claims, obtain additional information, reach The FSA Store, and find contact information for customer service. The EBRC is maintained by the account management team and can be updated at any time to keep it current and relevant.

Plan Administration Support & Account Management	Claims Processing	Rated 75	What are your internal payment processing standards, including claim processing and payment issuance timelines? Do you consistently meet those standards? If so, indicate the % of time that you meet your internal standards.	We process claims daily. There is no minimum amount for reimbursement at Ameriflex. 100% of claims must be substantiated with supporting documentation from the participant and/or an independent third party, or through the safe harbors allowed by IRS ruling 2003-43 and 2006-69. To assure compliance with IRS regulations, we offer the maximum electronic substantiation capabilities to drive the minimum amount of follow up requests. Yes, we consistently meet these standards.	HealthEquity processes claims and issues reimbursements daily. We approve claims within two business days of receipt and issue reimbursements within three to five days. HealthEquity service standard is 98% of claims are processed within 5 business days. Based on our book of business in 2023, 99.9% of claims are processed within 5 business days.	Our internal payment processing standards, including claim processing and payment issuance timelines is as follows: — Turnaround Time — Two business days or less. — Financial Precision — 98% Yes, we consistently meet those standards. Our Turnaround Time for 2023 across all client's claims was 1.45 days on average. Our Financial Precision for 2023 across all clients was 99.65% on average.	Internal payment processing standards, including claim processing and payment issuance are processed daily, meeting the goal at least 99.8% of the time.	Claims are processed within 24-48 hours upon receipt of claim.	Voya processes claims daily. For a clean claim, the average turnaround time for claims process and is 2-4 business days. This standard is met 95% of the time.
Plan Administration Support & Account Management	Claims Processing	Rated 76	5 What % of claims are auto- adjudicated?	97%	HealthEquity delivers an average auto-substantiation rate of nearly 90%. Our rates for each account type are in line, or better, than industry average. The rate experienced by individual clients may vary based upon specific plan design and how the program is set up.	Our debit card auto- substantiation rate is 91% for our entire book of business.	With TASC technology, 90% of claims are auto-substantiated.	87%	Voya takes a unique approach to FSA substantiation using our proprietary claims "pre-check" process. This process has allowed us to achieve 85-90% autosubstantiation rates across our FSA products and will in turn reduce the number of times we request a receipt from a
Plan Administration Support & Account Management	Claims Processing	Rated 77	Please provide the # of CSR staff, avg. years customer service experience, annual turnover %.	We have 55 Customer Service Representatives with an average of 9 years in customer service experience. Our annual turnover in 2023 was <3%.	We currently employed approximately 1,200 member service representatives (MSRs). MSRs have approximately four years tenure on average. The turnover rate in 2023 was 32%.	- Number of Call Center Consultants: 400 - Average years of experience: Three years - Annual turnover: 20%	TASC employs approximately 110 Customer Care Representatives (CSR) year round, who are geographically dispersed across the nation to serve each time zone and back up our services in case of severe weather conditions. TASC enjoys a significantly lower than average customer care team turnover rate and a significantly higher than average tenure of more than 7 years. This experience and commitment translates into an exceptional client – and participant – service experience. Our average turnover rate for the past five years is 9% for CSRs. The majority of turnover in Customer Care Representatives (CCRs) is related to promotion to other areas of the business.	15, 2.5 years tenure and 3 % turnover rate.	Voya employees 400 CSR, with an average tenure of 5-years, which is higher than the industry standard. Our annual turnover is approximately 15%

Plan Claims Administration Processing Support & Account Management	78 Do you assign CSRs to specific accounts? If yes, how many would be assigned to the City? If no (not?), can dedicated CSRs be assigned to the City?	Because of the complexity and size of this project, and to assure a balanced workload and client satisfaction, we will appoint a dedicated customer service team to service the City's employees.	Our member service teams operate in a shared service environment to support all members across our book of business for all products.	We can assign dedicated CSRs specializing in handling your employee questions. An additional advantage of utilizing this option affords you the ability to provide a cultural training class for this team covering all aspects of your program to ensure an optimal experience for your employees. Additional fees will apply. The downside of this solution is simply that if the call center team receives a significant increase in calls, a dedicated model can't flex to the increase as well as a designated model.	E	CSRs aren't assigned to specifc accounts but if awarded the City contract this can be discussed. See xpla atio	The City team will include a lead and 10 additional team members. All CSRs will be fully educated on the City of LA's benefit programs.
Plan Claims Administration Processing Support & Account Management	79 With regard to your recordkeeping systems, please describe your record retention and destruction policy, including how long records are retained.	Customer records for covered participants, dependents, and beneficiaries are retained for ten (10) years or as required by law and Ameriflex policy. Mandatory physical and logical controls to protect data in compliance with the HIPAA Security Rule, Privacy Rule, and HITECH amendment. These include physical and logical access control, strong encryption when data is in transit and at rest, and document classification, retention, and destruction policies which ensure that hardcopies are protected, stored, and destroyed in full compliance with relevant laws. Data is removed and destroyed once the retention period is met. Ameriflex maintains accounting records on both the plan level, recording all fund transactions between the clients and Ameriflex, and the employee level, recording transactions for each participant. Records are maintained onsite with redundancy backup offsite through a secure storage solution.		Our retention and destruction processes are dictated by our Records Retention Policy and Schedule, and as mandated by applicable laws. At the end of the retention period specified for Records Retention (generally 10 years), data will be purged, in accordance with this Schedule or applicable plan sponsor contract requirements.	We maintain certificates of destruction from our contractors. We will also perform an Active Navigation search for the City's data. Customer records are retained for seven (7) years or as required by law and TASC policy. Data is removed and destroyed once the retention period is met.	Records are retained for 7 years. If data older then this needs to be retrieved. The member can send in a request to our CSR team.	Yes Voya has a Record Retention and Destruction Policy which includes electronic data. Records are retained for 7-years.

Plan Claims Administration Proces Support & Account Management	 84 What is the average number of claims processed for each claims processor, by day, for the team that will be assigned to the City of Los Angeles?	This number varies, but since we are appointing a dedicated team for the City, this team's role will encompass only the City's plans.	Our claim processors typically process between 175 and 190 claims per day.	The average number of claims processed by each claim processor daily is approximately 175.	With our 90% auto adudication rate, most claims submitted are virtually processed. For those that are manual with over 70,000 clients, our system uses historical and real-time data to identify and generate the number of resources needed. Over 25,000 claims are processed each day. To ensure adequate staff is in place to achieve service standards, volume and resource forecasts are generated using predictive modeling from workforce management software called TotalView IEX by N.I.C.E.	150-200 claims per day with a turnaround time of 1-2 days	Voya processes an average of 100 claims per processors, per day.
Plan Claims Administration Proces Support & Account Management	 85 What is your annual HC/DC FSA claims volume?	In 2023, over 1.1M HC/DC FSA claims were processed.	More than 1.5 million.	Inspira's annual medical and dependent care FSA claims volume is 10,727,402 claims.	TASC serves more than 18,000 FSA clients with over 1.2 million covered lives. TASC processed more than 9 million claims in 2022, averaging more than 770,000 claims per month with a total paid out of 7.2 million. We are the largest FSA provider in the	~60,000	822,317 claims transactions per year. 2,594,268 debit card transactions annually.
Plan Claims Administration Proces Support & Account Management	 86 How many dedicated claims processors will be assigned to the City?	20	We employ approximately 119 internal claims processors and 18 leaders across our organization. The team is also supported by five claims support analysts and five claims operations analysts. Many of our member service representatives are also trained to adjust and/or reprocess claims.	We have approximately 60 designated claim processors who can assist you with the administration of your FSA.	Total number of Claims Processors is over 50. TASC has a variety of roles that process claims as well as other tasks, and the number of claim processors varies and is based on demand and the number of claims to ensure that our service standards are met.	2	For the fastest claims turn-around-time, having all claims processors available to process claims for the City of Los Angeles is the best practice. If a dedicated team is needed, we would want to evaluate estimated claims volume from previous years to scope the size of the team.

Plan Administration Support & Account Management	Claims Processing	Rated 87	Can your system flag certain recurring expenses that have already been substantiated? (i.e., will you require substantiation of a recurring eligible expense each time the expense is submitted or only the first time the expense is submitted?)	Yes, our system can flag certain recurring expenses that have already been substantiated. No, we do not require substantiation of a recurring eligible expense.		Dependent care FSA members can submit claims throughout the plan year or on an annual basis. For members who opt to submit claims throughout the plan year, they can select "Pay-as-you-go" on the HealthEquity claim form. Standard information is required, including childcare provider, dependent name, cost of care, description of care, start/end date of services, and provider signature if receipts are not provided. Alternatively, members can opt to submit a request for reimbursement once during the plan year. With this option, reimbursements will automatically be sent to the member as funds accrue in their dependent care FSA. Members must submit standard information as detailed above and indicate "annual" on the HealthEquity claim form. If a member needs to make a change to an existing annual claim, they can submit a new claim form.		For recurring expenses, once an initial debit card claim is substantiated via documentation from the member, any subsequent claims with the same merchant code, and the amount, will automatically substantiate. Recurring transactions will happer for three years. Examples: Recurring medical services at the same location/providers office and for the same dollar amount. All other transactions, similar to claim requests, require substantiation.		Yes, TASC has recurring expense logic built into the platform and has a form where participants can designate a recurring expense.		Our system can process recurring expenses the employee will need to send substantiation on a quarterly basis.		Yes, we utilize co-pay matching and Recurring Expense Logic, so after a transaction has been substantiated once for the plan year, transactions for the same amount in the same setting are substantiated electronically and do not require another review.
Plan Administration Support & Account Management	Claims Processing	Rated 88	Confirm that you will provide issuance of reimbursements	Yes Yes	Yes		Yes	Confirmed.	Ye	Confirmed. Plan Administration Support & Account Management	Claims Processing	Rated 90	Will separate reimbursement checks be used for healthcare versus dependent care reimbursements? If so, will these be processed in the same or different locations?	Yes		Claims are processed by remote examiners nationwide. Additional claims processing services are provided by Conduent-managed centers in Lexington, Kentucky and centers in Hyderabad and Kochi, India.	Yes	We will issue separate reimbursement checks for healthcare and dependent care reimbursements. These will be processed in the same location.	Sec Exp nati	la	No			If a member as multiple claims across the healthcare and dependent care plans at one time, we send one check with the total amount across all claims. If the member just has a dependent care claim one day, then we would just send one check for that claim. However, we also have Direct Deposit which is a much faster method for members to receive their reimbursements.

Plan Administration Support & Account Management	Claims Rated Processing Rated	91 Describe your process for manually substantiating claims that you are unable to auto-substantiate.	If a card transaction requires additional documentation, automated email notices are sent to the participants. Participants may also view transactions and receipt status online or via the mobile app. Ameriflex will initiate multiple substantiation notifications via online portal alerts and email with associated dates for a response. If the participant does not have a valid email address on file, notices are sent via USPS first class mail to the home address on file for the participant. Participants must submit required substantiation documentation; otherwise, the unsubstantiated claim will be denied, and Ameriflex will use IRC recovery options. When card transactions are left unsubstantiated after multiple requests, claims will be denied. We use the following methods of resolution, permitted by Revenue Ruling 2003-43: a) Request for repayment (pay back the funds) or substitute/trade claim with another eligible expense	Claims processors review claims to ensure required data and documentation are provided for adjudication. For healthcare services, receipts, provider statements, and explanation of benefits can be provided as substantiation when accompanied by a completed claim form. The following data are required for health care FSA claims approval: - date service was provided, - type or description of service provided, - name of the service provider, - name of the patient/dependent, and - amount of the expense incurred. For expenses not covered by health insurance (e.g., deductible), an itemized statement from the provider is required with the patient's name, date of service, procedure description, provider name, and charge for the service. For prescription drugs, a pharmacy	In cases when a claim cannot be auto-substantiated, members will receive a debit card substantiation request letter. The member is given complete guidance of the process and requirements for claim substantiation. In addition, the letter outlines what the member can do if they cannot find the documentation/receipt or if they've used their card in error. The unsubstantiated transaction will also be shown as an alert on the member website and mobile app.	to us via the mobile app or the participant portal.	Employee can submit claims via the member portal or via the mobile app. The employee will enter in needed information and provide reciepts for processing. Claims are processed within 24-48 hours upon receipt.	Voya has a proprietary process, "Advanced pre-check claims review" in which a Claims Processor will review all claims that are not auto-substantiated to determine if enough information is available to substantiate the claim, before asking for additional information. If after this process additional information is needed, we will email the Participant requesting the documentation. Additional documentation can be uploaded via the mobile app or participant portal, faxed, or emailed.

Management			Yes	Yes	Yes	Yes	Yes	Yes

Plan Claims Administration Processing Support & Account Management	93 How and when are employees warned of potential FSA/DCRA forfeitures? Please include the medium(s) in which employees will receive those warnings (e.g. letter in mail, email, phone call, text) and provide samples of these warning notifications. How are actual forfeitures identified and reported to the City and participants?	Prior to the end of the Plan Year, we initiate reminders emails and online portal alerts to participants of the "use-it-or-lose-it" requirements as follows: a) If the employer decides to implement the Ameriflex debit card, each FSA /DCRA participant will receive monthly account summary statements, b) Reimbursement checks can be included a reminder message, and c) Our call center representatives can remind participants in the 4th quarter about the importance of filing claims prior to the run-out period deadline.	We provide continuous member education regarding the possibility of forfeiture and encourage members to review account information via our member portal or mobile app. Additionally, we utilize email to provide	Inspira emails a year-end reminder in late November to inform members that their plan year is ending soon and encourages members to spend-down their FSA dollars, submit claims, check their balances, and submit eligible claims as soon as possible. Our monthly Ledger Summary Report lists deposits, payments, and account balances by member account for the period and YTD. Plan sponsors use this report for internal account reconciliation purposes. This report also includes a "Remaining Election" column. When the plan year run out expires, this column displays forfeitures. We send forfeitures back to the plan sponsor. Please see attached sample notification - Exhibit 3_ Inspira Year End Balance Reminder Sample.	TASC generates plan-year-end and grace period-end emails 30 days prior to the end of the plan year to HCFSA-DCRA participants, showing the following information: • Benefit account • Available balance • Carryover maximum (if applicable) • Annual election • Contributions • Expenditures • Last day for spending (deadline to incur eligible expenses) • Last day for submitting expenses Submitted on TASC Response - Exhibit 93: Forfeiture Warning Notification samples	Employees will be notified of forfeitures 60 day before balance expire. They will receive an email letting them know to login and submit claims to use their funds. The employee can change their communication preferences in the member portal to receive messages via text. A monthly report is provided to the employees and an automated monthly report is provided to the City.	Within the portal, employees see a countdown calendar of how long the participant has to incur expenses and to submit claims. All reimbursements checks go out with current balance information. Statements are emailed to participants and loaded to the Participant Portal as a "task" to view with option to download and print. Under our best practice claims funding method, Claims Paid Invoicing, Voya doesn't retain contributions. Clients hold contributions and only pay claims funding invoices when Voya has paid for an expense. At plan closeout, we provide a final Account Balance Report that shows the actual Cash Balance (election amount minus claims paid) for each participant.
Plan Claims Administration Processing Support & Account Management	94 Do you offer ACH or direct deposit of FSA/DCRA reimbursements into participants' bank accounts?	Yes. We provides reimbursements through the following; 1) Debit Card (Ameriflex Card) – automatically adjudicated, 2) Direct Deposit (daily deposits into participant's accounts), 3) Paper Check (processed daily and mailed out), 4) Direct Carrier Feed – My Connect (auto-substantiated at the point services are rendered), 5) Pay-A-Provider (works like bill pay).		Yes	Yes. Participants are able to schedule a direct deposit electronic transfer to their bank account from their MyCash balance.	Yes we offer direct deposit for reimbursements.	Yes, direct deposit.
Plan Claims Administration Processing Support & Account Management	95 For the claim office proposed, please indicate financial accuracy as a percent of total claims dollars paid (include over / underpayments) over the past 12 months.	All claims are reviewed by the quality assurance processor until the claims processor demonstrates that they can process all claims sent with a 99.5% accuracy rating.	We maintains a 99% accuracy rate for claims processing. An independent internal audit team reviews up to 5% of all claims processed daily, for both financial and coding accuracy. Additionally, all identified claim issues are documented and factored into our quality assurance rating each month.	Our claim financial accuracy is 98%.	99.9% financial and processing accuracy.	99%	99%
Plan Claims Rated Administration Processing Support & Account Management	96 Do you anticipate any changes to the claims system over the next two years? If so, how will they affect the claims system used for the City?	Yes	We do not foresee any changes will impact our claims administration for the City.	No	No	No	No

Plan Claims Administration Processing Support & Account Management	97 Describe your method for ensuring that benefit terminations are adequately and timely handled. How does the system track termination dates provided to you by the City?	It is important that you notify your dedicated Senior Account Manager as soon as a termination or leave of absence occurs, as this will help avoid excess charges. The City can terminate an employee online through the Ameriflex Employer Portal. After the termination is submitted online, the employee's account and Ameriflex debit card will be deactivated based on the effective termination date the City provides. Please note that should an employee termination request not be submitted in a timely manner, the employee will remain active in the Ameriflex system, and standard administration fees will apply. Ameriflex does not apply its standard administration fee to non-active participants. The terminated will still have access to the Ameriflex participant portal for proper account management and oversight. The terminated employee will typically have up to three months from the date of termination (the City's plan may vary; plan documents will verify if	Clients can communicate terminations to HealthEquity via file or manual update to our system. This information governs the program end date for the FSA. Per IRS regulations, employees are not refunded upon termination of an account. However, the member account remains in place until the end of the plan year. Once the termination is processed, FSA health cards are set to a restricted status and can no longer be utilized. Members can continue submit claims for reimbursement of eligible expenses incurred prior to the termination date. These claims will be approved in accordance with plan eligibility rules. We encourage employers to provide termination data as soon as possible to limit the exposure of time between the date of the termination and the processing of the termination data. Claims for services after termination date,	When a member is terminated, the plan sponsor communicates the new status and Status Effective Date via the Eligibility Maintenance File. Our platform uses the Status Effective Date as the last date on which expenses can be incurred and are still eligible for reimbursement. Expenses may be filed up to the end of the run-out period; however, the expense must be incurred on or before the Status Effective Date in order to be eligible for reimbursement.	As terms are sent on the file exchanges they will be processed as received systematically. For any time senstive terms off cycle, the City may send via the Client Portal self-service access which will initiate the term tracking in the platform per the City's termination rules for participant access of funds.	ThrivePass prefers to receive this information via file feed. Once the file is processed the termination date wil be updated.	During implementation, the assigned Data Services Specialist will work with the City's file vendors on conducting testing scenarios to include various termination scenarios. When an eligibility file is received, it's loaded in the system within 2 business days, using the termination date on the file. Following the termination rules determined during implementation, the account will be terminated and the debit card turned off. The terminated employee runout period, determined during implementation, will be programmed in the system and terminated participants will be able to submit claims incurred prior to the termination during that runout period.
Plan Claims Administration Processing Support & Account Management	98 Confirm that you have the ability to recoup ineligible expenses from future approved claims.	Yes	HealthEquity utilizes a single funding account concept per member for all claims, card transactions, and direct payments. The balance of this account is updated in real-time prior to any fund disbursement. As a result, overpayments are exceedingly rare. Should a claim payment need to be corrected or recouped, HealthEquity provides a communication to the member with clear instructions on how to correct the claims error. Account repayment is typically facilitated via a check, or where a vendor card transaction took place, we accept and process credits back onto the debit card. Where appropriate, payroll funding reversals may be provided on the client's funding file for processing.	Yes Confirmed.	Confirmed.	/es	Yes

Plan (Administration Support & Account Management	Compliance Rated	Describe what credit protection and other services you provide to members who may be impacted by a data security breach.	Ameriflex cardholders get complimentary full wallet access to Mastercard's® comprehensive Identity Theft Protection and Restoration program, powered by CSID®. Additionally, Mastercard's HealthLock automatically reviews your medical claims to flag potential errors, fraud, and overbilling and can even negotiate on participant's behalf. Unparalleled in the industry, the Ameriflex Card Swipe Guarantee is a unique feature available to all HCFSA and HRA customers, where we assume compliance liability related to documentation. HCFSA and HRA-eligible card transactions are approved without providing additional documentation.	As part of the contractual agreement between HealthEquity and the client, members may receive credit monitoring, recourse, client/participant coverage, and other recourse. The conditions regarding losses covered and certain exclusions are negotiated alongside the master service agreement that ultimately will govern the parties' agreement.	breach with credit protection through Experian IdentityWorks, which includes identity detection	TASC carries Cyber Liability insurance of up to \$2 Million per our included Proof of Insurance.	If a data breach happens ThrivePass will contact the impacted individuals and offer credit protection.	Voya would provide Experian credit monitoring and fraud protection for at a minimum the time period the applicable law requires. Some states require two years.
Plan (Administration Support & Account Management	Compliance Rated	Describe your disaster planning/prevention resources and plans, including the frequency with which your data is backed up and redundant processing centers.	Ameriflex has an up-to-date disaster recovery and business continuity plan in place that supports and prepares our organizations in the event of disruptive events. Such events can include, but are not limited to, global pandemic, fire, flood, utility outages, natural disaster/inclement weather, civil disturbance, terrorist attacks, software and system failure, malfunctioning software caused by a computer virus, structural building disturbances, or force majeure. Our disaster recovery and business continuity plan encompass how our employees will communicate, where they will go and how they will keep doing their jobs securely, safely and unharmed in support of clients. Our servers (primary and	HealthEquity's security team has developed and maintains comprehensive business continuity and disaster recovery policies that are tested and updated regularly. Business Continuity: In the event we were to experience an unplanned business interruption, HealthEquity maintains a business continuity plan that outlines roles and responsibilities for all departments within the organization. The plan provides a comprehensive collection of emergency procedures and playbooks that can be leveraged by stakeholders to quickly resume normal business functions. HealthEquity has identified alternate workspaces for any	allows for a Recovery Point Objective (RPO) of < 15 minutes. – Storage leverages a replicated model using Azure Netapp Files. – Overall Recovery Time Objective (RTO) < 12 hours.	TASC's systems are cloud-based utilizing Amazon Web Services (AWS). In order to ensure that TASC is able to recover as quickly as possible from a significant outage caused by a disaster data backups are replicated near realtime within the AWS server-less environment, and we utilize three AWS regions to ensure redundancy. AWS data centers utilize a state-of-the-art data backup and recovery system. Data is redundantly stored in multiple physical locations as part of normal operation. All backup data, in all data, centers is fully encrypted at all times.	In effort to maintain a swift response to any unpredictable circumstances that might lead to exposure to an adverse incident, ThrivePass is committed to conduct Annual Incident Response Tests. These tests allow the organization to proactively improve existing frameworks and processes to reduce downtime of services or avoid it altogether if possible. These annual tests are conducted by combined effort of the SCO, VP of Technology and Leadership Team to ensure that mock incidents are unbiased and prove to be an effective tool to highlight and report areas where improvements are to be implemented.	Following a five-stage planning lifecycle (Analysis, Solution Design, Implementation, Testing & Acceptance, and Maintenance), WEX Health has determined and addressed critical and non-critical business functions as well as the corresponding staffing, systems and equipment, communication links, and facilities that, in the event of a disaster, would be vulnerable and potentially put WEX Health and our Partners at risk of business and/or financial impacts. For each function, an acceptable Recovery Point Objective (RPO) — the acceptable latency of data that will be recovered — and an acceptable Recovery Time Objective (RTO) — the acceptable amount of time to restore the function — has been identified and

Plan Administration Support & Account Management	Participant Education/ Communic ations		Describe your organization's video educational and marketing content. What specific video content do you make available and is it applicable to public sector plan sponsors of employee benefit plans? Does this material require or does it not require customization for the City's Plan? Indicate whether you charge your public sector plan sponsors for the use of this material in their plans or for customization.		We will provide all necessary employee communication and educational materials to participants. Employee education is key to increasing participation in the HCFSA program for employers. Our objective is to provide clear and concise materials that promote the benefits of plan participation and ease-of-use of the Ameriflex Debit Card, online and mobile tools for the employer's HCFSA program. We will work with you to develop an employee education plan to boost employee participation. Our approach includes: 1) We can provide informational and promotional materials in advance of Open Enrollment to entice employees; 2) We can conduct onsite meetings to inform employees about the tax advantages of IRC Section 125 plan participation; 3) We can provide webinars and in-person Q&A sessions; 4) We will provide all necessary IRC Section 125 plan educational materials to further enhance your understanding of		Engage360 is our scalable, year- round member engagement program designed to deliver the right message to the right member at the right moment. Our proactive, ongoing, and targeted programs help members get more from their healthcare dollars while relieving healthcare costs. Through our exclusive behavior- based email campaigns, we engage members with targeted content relevant to their benefit choices. All emails, message center posts, and showcased images on our member portal pages are created to inform, educate, and inspire members. Engage360 also features a robust digital gallery of content, tools, and insights proven to drive adoption, maximize utilization, and measure success. Our Engage360 library contains fully customizable content for our clients that includes:		Inspira produces publicly available videos focused on our health, wealth, retirement, and benefit solutions. These videos can be found on inspirafinancial.com and our YouTube channel, and we are always building out our library. These videos do not require customization and are available for any public sector plan sponsor to share links or embed in their materials. We have an extensive library of flyers, guides, and other educational materials as well. Customized member materials and other custom communication requests are dependent on required Statement of Work, plus mailing costs (if applicable).		TASC has a library of educational videos (not sales videos) to educate the participant on the FSA benefit and/or how to use our platform that do not require customization. These videos can be used by the City as they were created with all employers in mind and educate on Internal Revenue Code that is universal for all our clients. There is NO costs for these videos.		ThrivePass doesn't have specific for each client we have generic benefit videos available to the members on the portal under resources.		Voya Employee Benefits Resource Center (EBRC) contains educational videos for all Voya products. The videos are general and explain "What is an FSA" and "How to use my FSA". These videos and all communication materials are provided at no charge. Voya is willing to work with the City of Los Angeles to customize materials with Logos, and discuss further how we can meet the city's needs.
Plan Administration Support & Account Management	Participant Rated Education/ Communic ations	133	Indicate whether your firm generates communications in "newsletter" formats and at what frequency.		Yes, we generate newsletters in electronic format.		Confirmed. Client newsletters are released on an as needed basis as product developments and compliance alerts require.		Inspira does not generate communications in a newsletter format.		We can have newsletters on the City's custom microsite if the City wants.		ThrivePass has a blog where material is released as well as our ThrivePass LinkedIn page.		Newsletters are sent quarterly. Voya will provide an annual Communications Calendar.

Plan Website Administration Support & Account Management	customized, co-branded microsite for the City at no charge. What resources, if any, does your organization devote to generating fresh website and/or	Dur Marketing team generates fresh website and other news content. They also maintain our website to ensure all content is current. We provided a sample of fresh web content in Exhibit 4 .	We have a thriving social presence on LinkedIn, Facebook, Twitter, and YouTube. Across the four channels, HealthEquity has more than 26,000 followers and reports a total of 14,500 engagements in 2022. Of the four platforms, the HealthEquity LinkedIn community — approximately 40% members and 60% clients and partners — consistently sees the most audience acquisition and engagement. Employers, benefits advisors, members, and teammates regularly interact with polls and share content with their connections to bring awareness to upcoming webinars, regulatory announcements, and thought leadership. - LinkedIn: @HealthEquity - Facebook: @HealthEquityPage	Inspira would be willing to discuss this further with the City in detail in order to understand the full scope of the microsite during the next phase of the RFP process.	Confirmed. TASC has a dedicated resource for mcirosite development and upkeep. We can create a customized microsite that is a central repository for communication materials and plan specific educational information. It is accessible without a password and explains the features, benefits and value of enrolling in the Flexible Benefits Plan. This co-branded site contains a link to TASC's online platform, numerous flyers and educational materials, breaking news, TASC contact information. Website customization options are virtually unlimited. Submitted on TASC Response - Exhibit 145: An example of our Stanford University client	A separate microsite won't be provided but the member portal will have the City's logo in the left hand corner so they know they are logging into a sponsored account.	Confirmed. Please see the attached EBRC Website Content flyer.
Plan Website Administration Support & Account Management	posting news, updates and other information from your organization or from the plan sponsor.	Ameriflex regards compliance and transparency are some of our nighest priorities. We keep our company and our clients thoroughly informed of any egislative changes. We post news pertaining to legislative and compliance updates, updates and other information about Ameriflex; however, as a closelyneld corporation with strict client confidentiality we do not disclose information about our clients and their plan publicly.	- YouTube: @GoHealthEquity	See xpla atio n Our website can display alerts and updates in a banner on the member's account dashboard. This may include information from the plan sponsor or Inspira. Account actions and updates will be displayed on the Alerts page. News and updates can also be added to the News page.	Ex	ThrivePass can post items under "Resources" available. Messages can be posted on the banner of the member portal when they log in a message will pop up on the top of the screen.	We have the ability to host banners and articles in the Participant Portal, as well as upload to the City of Los Angeles microsite.

Plan Administration Support & Account Management	Website	Rated	i r	Describe how your member web- interface differs from the City's current member website provided by WageWorks/Health Equity and where you see gaps (both positive and negative).	SPA™ is the foundation of our technology and is the most allencompassing consumer-driven healthcare (CDH) technology in the industry. Developed with all account types in mind, SPA™ works with equal precision across all CDH accounts. This enables us to control 100% of the client, employee, and provider experience. With the Ameriflex Card Swipe Guarantee, we work to auto-verify the City's employees' transactions, so they will not need to submit documentation, unlike WageWorks/Health Equity. As long as the City's employees use their debit cards for eligible expenses at eligible providers, we do the rest of the work. Ameriflex cardholders get complimentary full wallet access to the identity Theft Protection and Restoration program, unlike WageWorks/Health Equity who provides up to \$1M in coverage and restoration.		As we do not have access to the current member website interface, we are unable to provide insight into gaps and differences.	Our exclusive MyCash first-to-market is the biggest difference as we are able to place reimbursements back on the same Debit Card that houses participant contributions using a separate cash purse. With MyCash we are able to reimburse faster than anyone else in the industry by eliminating the middle man (bank and postal service). The participant can use the MyCash balance (out of pocket reimbursements) to spend on anything, anywhere (movies, groceries, shopping, online, etc.). Our website allows members to convert MyCash funds to direct deposit or paper check if they like. The City's incumbent website does NOT have this technology.	Employers and employees have access through our state-of-the-art portals for all Pre-Tax benefits. Employers can assign HR/Benefits and Accounting staff with specific access to various parts of the portal based on specific userrights. Each person has his or her own unique username and password. Participants in Pre-Tax accounts can find all their information in one place, whether on the portal or through the mobile app and can: • Check Balances and View Transaction History by account. • View and Submit Receipt Requests. • File a Claim Online and Upload Receipts. • Request HSA Distribution. • Order Additional Debit Cards and/or report a card lost or stolen. • Manage Bank Accounts and add Direct Deposit Information. • Store and view healthcare spending data in unique ways to engage employees in the management of their accounts	We are more than happy to demo our experience to illustrate the differences between Voya and your current admin. Given we do not have access to WW/HEq's system for The City, we prefer not assume functionality differences specific for your participants.
Plan Administration Support & Account Management	Website	Rated	k r	Please provide the overall website unique user engagement rate as a percentage of your total member population of your five largest public agency clients.	ICUBA, FL (97% website user engagement rate) Oregon Homecare Workers Benefit Trust (96% website user engagement rate) Wake County Public Schools, NC (95% website user engagement rate) SEIU Healthcare NW Health Benefits Trust (93% website user engagement rate) Anne Arundel County Government, MD (91% website	HealthEquity does not share this information.	Our unique website user engagement rate as a percentage of our total member population of our five largest public agency clients is: - Client 1 - 41% - Client 2 - 43% - Client 3 - 70% - Client 4 - 24% - Client 5 - 26%	TASC has a robust, highly-rated (4.5 Stars) mobile application, supporting both iOS and Android, with over 176,000 downloads and 3,300 daily users of the TASC mobile app.	0.83	The average engagement is 72% of our client base.

Plan Administration Support & Account Management	Website Rated	14	The City will be evaluating the proposer's member self-service web portal used by members to manage their tax-advantaged spending accounts. Please provide an Internet address and instructions (both prelogin and post-login) on how to access a demo site for your member website that is fully functional with both HFSA and DCFSA contents.	The URL for our online participant portal is https://myameriflex.com. We can facilitate a live finalist presentation if we are selected as a finalist. We have enclosed an instruction sheet as to how accounts are set up as Exhibit 5.	As the incumbent, the City already has first hand experience with our member portal. However, as requested, please click on our self guided demo sites below. Member Portal - Guided Demo: https://app.teamwalnut.com/play er/?demold=55a65557-13f8-4742-aeb5-974da894190e&screenId=f87fe3d c-59cb-4042-a456-383e0e6a9e6e&showGuide=true &showGuidesToolbar=true&show Hotspots=true&source=app Mobile Demo (This is for the new app to be launched in 2024.): https://app.teamwalnut.com/play er/?demold=858107f0-a73b-4fcc-8fc6-5c6d147c7401&screenId=deba46 bb-6b08-4282-8893-7a8bba87d5b4&showGuide=true &showGuidesToolbar=true&show Hotspots=true&source=app	In lieu of providing demo account credentials, we are happy to schedule a demo of the member website with your dedicated sales representative.	TASC's internet address is TASConline.com. TASC welcomes the opportunity to demo our Universal Benefit Account platform to the City . We prefer to provide a live demo, walking the City administrators through the simplified, easy and connected experience to highlight the robust functionality. In the meantime, you may review the following video demos for Universal Benefit Account. Participant Demo: https://youtu.be/J13if6K38R8	ThrivePass prefers to do a live demo. Member Services Call Center Rated	161 What language services other than English are available by phone? Confirm your ability to provide Spanish language services and TDD services during all hours of telephone customer service availability.	Customer service is provided in over 200 languages, including Spanish. We can accommodate TDD services during all hours of telephone customer service.	By partnering with Language Line Solutions for translation services, Member Services staff has 24/7 access to U.Sbased interpreters fluent in 150 languages. This allows us to support non-English and non-Spanish speaking members by phone.	Our call center consultants have the capacity to conduct telephone conversations in over 200 languages for our members using our translation service vendor, TransPerfect. A conference call is conducted with a Inspira Financial consultant, a language line operator, and the caller requiring foreign language needs. Confirmed. We can provide Spanish language services using our translation service vendor. We can support hearing impaired members using the interpretive services of Telecommunication Device for the Deaf (TDD) during our regular business hours.	Our IVR is billingual (English and Spanish). TASC takes great pride in providing the most thorough and accessible customer care to all participants. For non-English-speaking participants or participants for whom English is not their first language, translation services are available in dozens of other languages such as: Spanish, French, Italian, German, Greek, Russian, Chinese, Japanese and Korean. For hearing-disabled participants, TASC offers a variety of services. These include free relay services utilizing an interpreter, telecommunication device for the deaf (TDD), and a designated teletypewriter (TTY) line. All participants have access to our user-friendly website and participant portal for self-service options.	Spanish is available as well as a language line with over 100 languages available.	Voya employs both English and Spanish speaking Customer Service Representatives. In addition, Yes, we use an interpreter service that supports more than 250 languages. The CSR remains on the line to be a product expert and help the customer with questions, and the interpreter translates what the CSR and member are saying. Our Customer Service Representatives handle email and chat inquiries for those who cannot or do now want to speak live to a CSR.
Member Services Call Center Rated	162 Describe what resources, policies and practices you have in place to monitor, assess and improve upon the service quality of your customer service team/staff.	In our Customer Service Center, we impose stringent, internal quality control performance standards and work diligently to adhere to them. Written confirmations are not sent for standard phone inquiries. The following controls are in place to measure accuracy and track customer interactions: • All incoming calls and written inquiries (i.e. emails and online chats) are recorded and archived for a minimum of seven years. Our Team Leaders monitor a minimum number of interactions taken by each Customer Care Representative weekly. A scoring evaluation sheet is completed and each interaction is assessed a grade between 0% and 100%. In order to improve proficiency and effectiveness, each Customer Care Representative is given feedback from the monitored sessions that identify individual training needs. • Each CSR is required to enter	HealthEquity records 100% of inbound calls to its call centers and utilizes a variety of tools to track, analyze, and optimize call center performance. Data gathered is used to enhance processes and identify areas for ongoing training and coaching for member services team members. These tools also help identify potential issues to allow HealthEquity to reach a timely resolution: - Customer Relationship Management system: Member service representatives have full access to member information through our Oracle Service Cloud. Designed to track documentation and call data, this tool helps HealthEquity's team provide consistent responses to members, clients, or health plan providers Interactive intelligence supervisory tools: Used to identify and review member calls. While all voice calls are recorded, a sampling of recorded calls are accompanied by screen	Inspira has a comprehensive customer service consultant monitoring program, along with ongoing training, which ensures that consultants provide timely and accurate answers to member questions. Call center supervisors and members of the quality department monitor member calls at random to maintain compliance and accuracy. All consultants are monitored monthly and are not aware of monitoring as it occurs.	TASC constantly monitors call center performance by tracking the results for average speed of answer, calls handled per CCS, average talk time, volume of calls received per client, and abandonment rates, in addition to other indicators such as Sentiment analysis. Our Quality team conducts a random sampling of interactions to capture accuracy and compliance providing insight into the quality and positions us to provide the highest level of customer service. Each employee receives a scorecard with targeted goals for key areas of performance. Scorecards are updated with actual results on a monthly basis and reviewed with each employee.	At ThrivePass our employer service teams go through a series of classroom and on the job training. Classroom training consists of HIPAA compliance and other regulatory training, computer/data security, customer service best practices, while also attending benefit, product & platform specific training sessions. They also job shadow for claims administration, file processing, and additional customer service skills. This all occurs over a six week training program. Ongoing training includes product/market updates, platform release training, as well as any team or individual training sessions as needed or as they are identified through our ongoing coaching, call monitoring and QA processes.	We are committed to providing best-in-class service, and our service model is one of our biggest differentiators. Callers can opt to participate in a 3-question survey at the end of their call. This is how we obtain our Customer Call Satisfaction metrics. Our employer CSAT was 4.9 out of 5 through 9/30 of 2022. Escalated calls are forwarded to a Senior Customer Service Representative. The Senior Customer Service Representative will assess the problem and take necessary steps to resolve it. In addition, a number of surveys are conducted throughout the year and annually to evaluate customer satisfaction. These results are reviewed, and enhancements are made with these survey results.

Member Services Call Center Rated	Please describe what type of information CSRs provide to members telephonically regarding each of the taxadvantaged spending accounts (healthcare and dependent care). Are CSRs trained to provide instructions and/or step by step guidance to members on how to enroll, make changes or corrections to their accounts online, file claims, etc.? Please provide sample CSR telephonic scripts.	CSRs are available to participants for debit card questions, i.e. eligible expense, paid claims, pending claims, HCFSA balance, and denied claims. Ameriflex entry-level CSRs receive thorough training during their first six weeks of employment, which includes 240 hours of classroom instruction, interactive videos, skills assessment, and supervised, on-site, on-the-job training, before providing unsupervised telephone coverage. Initial education includes unique client plan specifics, benefit products and services, enrollment processes, claims adjudication, HCFSA and COBRA/Retiree services, software applications and system tools, administrative procedures, and service delivery information. They also learn payroll deduction, data exchange, and reimbursement procedures, §125 rules and regulations.	The most frequently tracked customer service inquiries from reimbursement account members, include questions regarding: - benefits, process, and tax savings associated with account - claims/reimbursements - denied or pended claims - debit card transactions - card verification requests - card replacement or additional card requests Member services representatives are trained to provide assistance with changes or corrections to members' accounts online, filling claims, etc. We do not use a formal call script in Member Services, but we do have a suggested call flow we encourage our team members to follow:	Our CSRs support members with account updates, assist with claim processing questions, answer questions regarding eligible and non-eligible items and educate members about spending account usage to ensure they are maximizing their benefit experience. They are able to provide instructions for members to enroll, make changes/corrections to online account information, and file claims. We train our CSRs to have a conversation with members, rather than reading from a script. This provides a more personal and satisfying user experience for members who are reaching out with questions about their account.	Yes, CSRS can answer all FSA plan related questions. TASC's Specialists provide specific direct assistance to plan participants who contact our Service Center. They're available to assist employees with telephone inquiries, Participant Portal questions, support requests, etc. TASC empowers reps with the authority, training and information to successfully handle calls during initial contact. Our CCRs are able to handle the majority of incoming calls from employees and are normally able to answer questions and resolve inquiries during the initial phone call as first call resolution is one of our most touted metrics. Submitted on TASC Response - Exhibit 163	CSRs have access to the members account. CSRs can provide information in regards to balance information, order new cards, claims information. They can guide members on how to enroll, make changes and how to file claims. ThrivePass doesn't use scripts.	Our Custom Service Representatives are cross trained in all Health Account Solutions products and services and can respond to any questions relating participants' claims and other items regarding their accounts. They have a number of resources they can reference during calls to help them answer questions (including a qualified medical expenses list) or any client specific notices they should be aware of. Customer service representatives (CSRs) typically are granted access to see a mirror image of each consumer's Portal experience. The CSR can access and walk through a read-only version of a specific consumer's online access easily to better support the consumer and describe capabilities that are available. (While on the Consumer Portal the Add, Submit, Remove, Security Questions, and Passwords are disabled. Also,
		and reimbursement procedures,	encourage our team members to				Security Questions, and
Member Services Claims Processing	164 Indicate the overall % of claim denials for each 2023, 2022, 2021, and 2020.	2023 (<3%); 2022 (4%); 2021 (4%); 2020 (5%)	In general, approximately 16% of our claims are denied across all products.	Inspira does not currently track the percentage of claim denials.	Claim denials: 2023 at 14.42% 2022 at 16.93% 2021 at 19.86% 2020 at 20.92% TASC is pro-participant and can set custom configuration levels on our claims platform to influence denial rate (decrease the	3%	6-8% across 2020-2024.

Member Services Satisfaction	Rated	169 Indicate the satisfaction level for your five largest public agency clients for each of the last 3 survey periods.	Our client retention rate across all products from January 1- December 31, 2023 based on revenue is 97%. For 2022, 2021, and 2020, clients that accounted for more than 96% of our revenues (excluding interchange fees and vendor commissions) during the year have remained under contract with us in the succeeding year.	HealthEquity does not disclose this information due to confidentiality agreements.		Our member satisfaction rate (percentage) for 2023 was 88.1%. We track the satisfaction level by our full book of business, not by individual clients; therefore, we cannot provide additional detail by public sector.		Sentiment analysis is one our main quality indicators. Sentiment is a measurement of the overall emotional disposition of the interaction. The analytics engine evaluates positive and negative words and phrases, cross-talk during the interaction, laughter detection, the pitch, tone and pace of each speaker. Sentiment score of each call 5-point CSat scale (i.e. 1 = Very Dissatisfied, 2 = Dissatisfied, etc.), and have the % of calls in each category that rate each CSat score. Each row also has the overall avg. CSat rating out of 5. Client Sentiment Score 4.08 Participant Sentiment Score 4.01		Not attached but the score for Enterprise Clients NPS Survey Score is 71.		Our Call Center Satisfaction is approximately 95%.
Member Services Satisfaction	Rated	170 If you have collected member satisfaction survey data, indicate your 2023 results for both your full client base as well as your five largest public sector clients.	Ameriflex is one of the nation's trated consumer-driven healthcare administrators and among the few that use a Net Promoter Score to measure customer satisfaction. Our current Net Promoter Score of 78—on a scale of -100 to +100— is 4x the industry average, aligning with brands such as Starbucks, Amazon, and Airbnb.	Our most recent quality metric data for member services include - CSAT: 85.30% - NPS: 62.3 HealthEquity does not disclose client-specific information due to confidentiality agreements.		Our member satisfaction rate (percentage) for 2023 was 88.1%. We track the satisfaction level by our full book of business, not by individual clients; therefore, we cannot provide additional detail by public sector.		During our most recent quarterly satisfaction survey 95% of respondents were satisfied or very satisfied with the courtesy and professionalism of the TASC Customer Care Representative they interacted with.		Satisfaction our ratings are: • Google - 4.9/5 • Trustpilot - 4.4/5 • Capterra - 4.7/5		Our Call Center Satisfaction is approximately 95%.

Financial Cost	Cost	Unrated		The City is exploring changes to its medical offering to include a HDHP; do you provide HSA services? If so, please provide an overview of your service offering and illustrative 2025 pricing schedule non-binding to this RFP as an attachment to your RFP response.	Yes, we provide Health Savings Account (HSA) Administration services. We have enclosed an overview that outlines our HSA Administration offers in Exhibit 8.		HealthEquity provides HSA services and would be pleased to provide an overview and pricing schedule separately but we would need to know about your anticipated changes in order to provide an accurate price estimate.		HSA pricing is determined on an individual group basis. Some of the information taken into consideration for pricing is employer contributions amounts, estimated number of expected HSAs, how many HDHP plans are offered, how many total health plans are offered? Are there any other incentives to promote HSA adoption? We are happy to discuss our HSA services with you.		Yes, proposes a FREE (NO fees) full-service Health Savings Account (HSA) provides a comprehensive benefits managing all aspects of HSA Plan administration. Submitted on TASC Response - Exhibit 182. TASC HSA delivers: 2 5 basis points paid on participant cash balances Daily trade settlements for fund investing Customizable sweep thresholds Catch-up processing and excess contributions logic Prospectus and graphical analysis of performance Multiple contribution methods Tax document reporting for the participant Investment Platform through Schwab Trustee services through Matrix Independent Investment Advisor A TASC Debit Card Investment options for all risk tolerances Multiple top-rated investment options Compliance services		Yes ThrivePass administers HSA services. HSA quote included in the attachments.		Yes, Voya offers HSA administration. Clients of this size typically have a \$0.00 administrative fee, however, we would evaluate the underwriting parameters for the City of Los Angeles as part of the formal RFP process.
Financial	Cost	Rated		Vendor agrees that the contract pricing will be guaranteed for a minimum of 36 months and renewable for a minimum of twelve (12) months for subsequent periods	Ameriflex agrees.		Yes		Yes		Agreed. We will guarantee our costs for 60 months (the life of the initial contract). Exceeds requirements		Agreed		Confirmed.
Financial Cost	Cost	Rated		Are there additional fees for electronic feeds?	No o	No	No fees if using standard file feed formats.	No	Areed.	No		No		No	Voya does not charge a fee for file feeds.
Financial Cost	Cost	Rated	185	If you are offering rate caps on fee increases for years 4 and 5, please specify all caveats attached to the rate guarantee(s) offered.	We are proposing a 5-year rate guarantee where are proposed fees will remain fixed for the contract term.		There is no rate cap for years 4 and 5.		After the three year contract period, if the City is looking for a renewal for two additional contract years, we will evaluate the number of accounts and appropriate pricing will be reviewed at that time.		We guarantee our rates without caveat. They are firmed and fixed for ease of budgeting for the City.		Rates won't increase more then 3% COL		5-year rate guarantee offered.

Financial Cost Cost	Rated	186 Provide a comprehensive breakdown of any transactional fees outside of the base unit cost that the City or its participants may be subject to.	We have enclosed a comprehensive breakdown of any transactional fees outside of the base unit cost that the City or its participants may be subject to in Exhibit 9.	There are no transactional fees for the City or its participants	Optional services: - Customized participant materials and other custom communication requests: Cost based on required Statement of Work, plus mailing costs (if applicable). - Onsite Enrollment Meeting Support: \$500 per event. - Ad-hoc reporting: \$150 per hour. Statement of Work required. - Rejected/NSF Customer Funding ACH transactions: \$50/occurrence - Paper Account Statements: Available free online, or \$0.50/quarterly; \$1.50/monthly PPPM for mailed paper statements - Mid-Year Takeover Administration or Previous Plan Year Takeover: \$1,000 - Failure to Fund Release Claim: Any funding due Inspira for claims		No additional fees will be charged.	N/A
Financial Cost Cost	Rated	187 Confirm that you will provide an implementation credit for the contract	We are not proposing any implementation fees for the City.
